Mileage:	

## Inspection result

<input type="checkbox"/>	without defects / shortcomings
<input type="checkbox"/>	minor defects
<input type="checkbox"/>	significant defects

## Description of defects

Date of vehicle inspection:	

## Site of inspection

Name and adress:	
Name of inspector / examiner:	

The vehicle meets the requirements for environment, traffic and operational safety.

The vehicle was inspected without disassembly work, with exception of disassembly work necessary for access to test connection ports or removal points. The condition described refers to the time of the inspection and does not include a forecast on the condition of the vehicle until the next inspection date. If the vehicle is sold, this report may be used by the new owner. The inspection certificate complies with EU Directive 2014/45/EG of the European Union and is valid for one year from the date of inspection.
